**Help Solve the Mystery?**

We are hoping you can help us out with solving a mystery. We are trying to find out when (even approximately) that the anchors and prop were placed in the area in front of the Court House building.

We know from the below picture from Kevin Toope that they were not there in 1959 as this picture shows him and his Aunt Florie sitting on the First World War German Krupp Gun (restored and now located next to the Museum).

Let us know if you have any additional information on these anchors and when they may have been placed here and/or where they came from in the first place.
